- The ice meteor broke apart, making the _____ surrounding some of the planets (such as Saturn); the earth's poles were "snowed on" by supercold ice particles.

- The animals and plants killed in the flood settled out and were buried.
Plants became _____.
Animals became oil, natural gas, and/or _____.
- The unstable plates cracked, shifted, and moved around while _____ filled the low places.

Dr. Kent Hovind, a high school science teacher for 15 years, is now considered one of the foremost authorities on "science and the Bible." He speaks over 800 times each year in public and private schools, universities, churches, camps, radio programs, and many other

meetings. He has debated evolutionists at many universities across America and is dedicated to the proclamation of factual, scientific evidence supporting the biblical record of creation and history of the world.

This book is designed to supplement his fact-filled creation seminars which are exciting and informative, causing even the most devout evolutionist to sit up and take notice! Christians will be encouraged in their faith and non-believers will be seriously challenged to reconsider their beliefs!

"Evolutionism is a religious world view that is not supported by science, Scripture, popular opinion, or common sense. The exclusive teaching of this dangerous, mind-altering philosophy in tax supported schools, parks, museums, etc. is a clear violation of the First Amendment."

—Dr. Kent Hovind
